

Mansfield/Ontario/Richland County  
**Health Department**

**PLUMBING  
INSPECTION  
DIVISION**

*Our State-Certified Inspectors:*

- 1) **ENFORCE** current plumbing codes to safeguard the installation of all plumbing piping, from new installations to replacements and repairs.
- 2) **ISSUE** permits and conducts inspections to ensure that all plumbing is installed according to state code.
- 3) **CONDUCT** investigations when nuisances arise from the installation of non-compliant plumbing.
- 4) **REGISTER** all individuals engaged in installing plumbing.
- 5) **PROTECT** public water supplies under EPA Backflow requirements.
- 6) **PREVENT** infiltration of grease/oil into public sewer systems by requiring grease and oil interceptors.

*An equal opportunity employer/provider of services*

**PLUMBING**  
**What is it?**

---

*PLUMBING is from the Latin word "lead" and does not mean just toilets and faucets!*

---

**PLUMBING** deals with the health and welfare of the public and the nation.

---

**PLUMBING** supplies the public with safe water for human consumption...

**PLUMBING** removes all the waste water and water-borne waste in a fast and safe manner...

**PLUMBING** includes all parts of the piping system inside and connected to a structure.

---

***PLUMBERS must be licensed just like doctors!***

---

**What else should I know?**

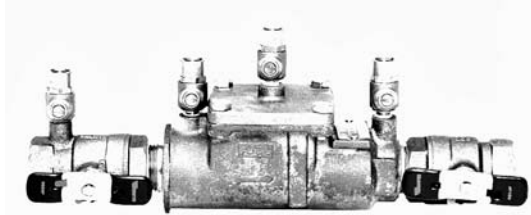

**PLUMBING** is not just putting pipes together.

**PLUMBING** is an *ART* and a *SCIENCE*.

## PLUMBING IS —

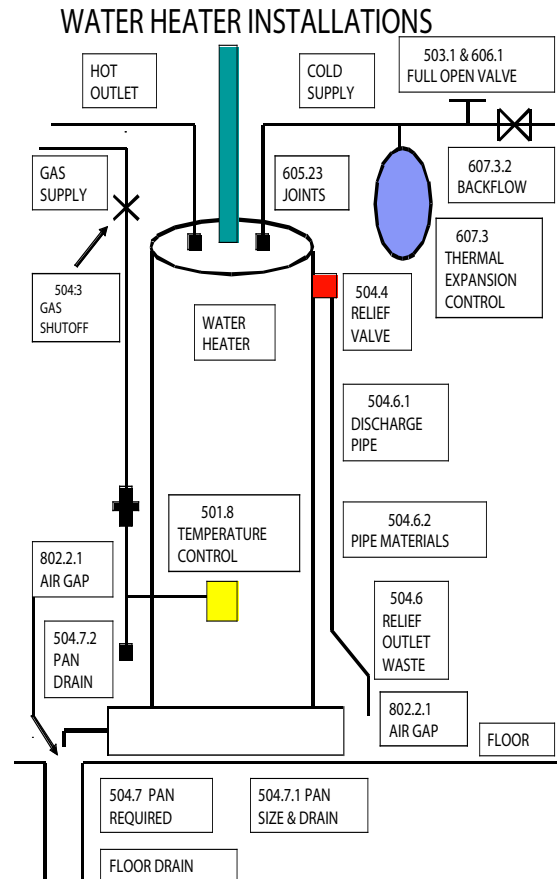

### WATER PROTECTION:

BACKFLOW PROTECTION and  
CROSS CONNECTION CONTROL.

## PLUMBING IS —

### SAFE HOT WATER TANKS:

## PLUMBING IS —
